

Project Experience

Project information – Light Towers at RECOPE Oil Pier

Location: Limón, Costa Rica
Project: Coating of lighting towers at RECOPE Oil Pier

Corrosion category: C5-M

Surface Preparation:
WAB10-SSPC SP10 and holdtight

Coatings System
MCU-MIOZINC 3 mils
MCU-MIOMASTIC 5 mils
MCU-MIOTOPCOAT 3 mils

Due to the weather conditions MCU-Coatings Technology was the only one coating system capable to finish the project in “amazingly record time”.

Company RECOPE has chosen MCU-Coatings as the official supplier for the whole Hydrocarbon RECOPE pier..
