

## Project Experience Offshore

### Project information

<b>location</b>	The Netherlands	<i>The SSCV Thialf, is a semi-submersible crane vessel operated by Heerema Marine Contractors, the largest crane vessel in the world. Thialf has two cranes with a combined maximum lifting capacity of 14,200 metric tons, can accommodate 736 people. The paints of MCU-Coatings are being used in the recoating project. Timely completion is a huge factor in the refurbishment, and down-time is being minimised as Heerema can use MCU in all weathers and humidity – the reference speaks for itself</i>
<b>client</b>	Heerema Marine Contractors	
<b>project</b>	Maintenance and mayor refurbishment	
<b>surf. Preparation</b>	UHP and grit blasting	
<b>system</b>	Multiple MCU-Coatings systems
